The majority (85%) of Physics BS degree graduates had plans to pursue graduate education.
The vast majority (95%) of graduates with a Physics Major plan to obtain either a masters degree or PhD.
Physics BS graduates were interested in three different advanced degree fields, the most popular being related to Physical Sciences (57%).
Half of graduates with a BS degree in Physics reported being employed within 6 months of graduation.

Data from 2014-2015 Graduating Class
UCSC First Destination Survey
More graduates with a BS degree in Physics were employed than seeking employment 6 months after graduation.
Of those employed, a 43% of BS Physics graduates reported working in the Industry/Manufacturing sector within 6 months of graduation.

Data from 2014-2015 Graduating Class
UCSC First Destination Survey
Fifty percent of graduates with a BS degree in Physics reported earning $31,320 annually or higher within 6 months of graduation.
Physics BS graduates reported that they plan to work in the Santa Cruz or San Francisco Bay Area.
UCSC Physics BS Graduates
When did they start looking for a job? (employed & seeking employment)

Half of Physics BS graduates began looking for a job at least 3 or more months before graduation.

Start the search early! Of those graduates who were employed full-time, 75% started searching for a job at least 3 or more months before graduation.

Data from 2014-2015 Graduating Class
UCSC First Destination Survey
Of those employed, most (86%) graduates with a BS degree in Physics received a job offer.
UCSC Physics BS Graduates
Internships

45% of graduates reported that they found their internship by networking with UCSC or personal contacts.

Most graduates with a Physics Major (78%) had at least 1 or more internships during their studies at UCSC.
